We were going on a 1500 mile road trip and needed something to keep my son busy! This has been a lifesaver to keep his mind active when he is not on his tablet. Each page has different activities. plus, it's Marvel themed which he loves!!

This product is AMAZING. As a college student, I carried one in my backpack. The mini stapler was such a hit on essay turn in days, even the professor thought it was awesome. Having it is a life saver!!
